*Delivering the Promise of a
Bagong Pilipinas*

MESSAGE FROM THE **PRESIDENT** OF THE REPUBLIC OF THE PHILIPPINES

It gives me great pride to express my full support for the Commission on Higher Education's **A.C.H.I.E.V.E. Agenda**, crafted under the leadership of **Chairperson Dr. Shirley C. Agrupis**, a bold and forward-looking plan to guide Philippine higher education in the years ahead and to contribute meaningfully to our vision of a **Bagong Pilipinas**.

Education has always been central to our nation's progress. It is the key that opens opportunities, empowers our people, and strengthens our democracy. In this era of rapid global change, we must ensure that our higher education system is not only inclusive and accessible but also innovative, competitive, and responsive to the needs of our communities and the world.

The A.C.H.I.E.V.E. Agenda embodies these aspirations. It seeks to: **A**dvance and make accessible lifelong learning; **C**entralize a one-nation human capital development plan; **H**armonize research and innovation with the Sustainable Development Goals; **I**ntegrate real-time data system; **E**xpand impact-driven internationalization strategies; **V**italize policies, internal systems, and governance; and **E**nsure effective and efficient public service. Together, these thrusts and enablers chart a clear path toward a higher education system that truly serves the Filipino people and contributes to national development.

As President, I pledge my administration's continued commitment to support the Commission on Higher Education and our higher education institutions in this transformative journey. Let us work together so that every Filipino learner may **achieve** their fullest potential, and through them, let our nation **ACHIEVE** a future of prosperity, equity, and peace.

Mabuhay ang mas mataas na edukasyon! Mabuhay ang sambayanang Pilipino!

FERDINAND R. MARCOS JR.

President of the Republic of the Philippines

FOREWORD

In support of the *Bagong Pilipinas* vision—a nation powered by innovation, shaped by compassion, and anchored in love of country—the Commission on Higher Education (CHED) proudly launches **A.C.H.I.E.V.E.**, a bold and transformative reform agenda to future-proof Philippine higher education.

A.C.H.I.E.V.E. is a strategic framework that aligns CHED’s priorities for 2025–2030 with coherence, innovation, and purpose. It builds on the significant gains of recent years: leading the recovery and renewal of the higher education sector during and after the pandemic; expanding access through the Free Higher Education program as underscored by President Ferdinand R. Marcos Jr. in his 2024 and 2025 State of the Nation Addresses; promoting alternative and flexible learning pathways such as the Ladderized Education Program and the Expanded Tertiary Education Equivalency and Accreditation Program (ETEEAP); and enhancing the global standing of Philippine higher education through stronger quality assurance and international partnerships.

While we celebrate these milestones, we must be unrelenting in recalibrating and redesigning our strategies to meet rapidly evolving global demands and ensure that our higher education institutions remain responsive to national priorities. These achievements provide a strong foundation for a more unified, strategic, and forward-looking approach.

Under the Marcos Administration, CHED envisions a higher education system that is inclusive, relevant, and resilient—driven by a stronger and more agile Commission. A.C.H.I.E.V.E. serves as CHED’s contribution to the Eight-Point Socioeconomic Agenda, the Philippine Development Plan 2023–2028, and Ambisyon Natin 2040. It advances human capital development by:

- Broadening access to higher learning;
- Addressing learning losses through flexible and lifelong education opportunities;
- Aligning academic programs with labor market demands;
- Fostering research and innovation that address real-world challenges; and
- Enhancing bureaucratic efficiency through digitalization, evidence-based policymaking, and streamlined governance.

Through A.C.H.I.E.V.E., CHED commits to:

- Enable all Filipinos to access and succeed in lifelong learning;
- Equip graduates with relevant competencies for decent work and global competitiveness;
- Cultivate a culture of research, innovation, and sustainability;
- Leverage real-time data for smarter policymaking and efficient resource use;
- Deepen international collaboration and academic mobility;
- Strengthen governance and quality assurance systems; and
- Deliver faster, more responsive, and people-centered public service.

A.C.H.I.E.V.E. is more than a reform agenda—it is our promise to build a higher education system that transforms lives, empowers communities, and drives national development in pursuit of a Bagong Pilipinas.

Higher education must be more than the milestone of graduation; it must open doors, shape futures, and create meaningful opportunities for every Filipino.

As we move forward, I call on students, educators, institutions, employers, policymakers, and partners across all sectors to join us in this shared mission.

Together with you, and with the unwavering support of the President of the Republic of the Philippines and his administration, CHED will truly ACHIEVE a higher education system that serves every Filipino, in every stage of life.

DR. SHIRLEY C. AGRUPIS

Chairperson

Commission on Higher Education

PART 1

WHAT IS A.C.H.I.E.V.E.?

Guided by the Bagong Pilipinas vision and aligned with the Eight-Point Socioeconomic Agenda of the Marcos Administration, the Philippine Development Plan 2023–2028, and *Ambisyon Natin* 2040, among others, the Commission on Higher Education (CHED) has developed **A.C.H.I.E.V.E.**—a strategic framework that translates the nation’s higher education commitments into clear priorities and enabling systems for 2025–2030.

A.C.H.I.E.V.E. promotes inclusive, innovative, and data-driven transformation in Philippine higher education, with the overarching goal of building a system that is **inclusive, quality-focused, globally competitive, socially responsible, and efficiently governed**.

The Agenda is composed of **four thrusts**—the core priority directions that address the most critical challenges and opportunities in higher education—and **three enablers**—the essential systems and capacities that sustain and strengthen these priorities.

THRUST A

Advanced and Accessible Lifelong Learning

Expanding flexible, affordable, and inclusive learning opportunities at every stage of life.

THRUST C

Centralized One-Nation Human Capital Development

Aligning higher education with labor market needs and national development goals.

THRUST H

Harmonized SDG-Based Research and Innovation

Supporting research that contributes to national progress and the Sustainable Development Goals (SDGs).

ENABLER I

Integrated Real-Time Data Collection and Analytics System

Using timely, accurate data to guide policies, planning, and decision-making.

THRUST E

Expanded and Impact-Driven Internationalization Strategies

Strengthening transnational higher education, global academic partnerships, mobility, and cross-border learning.

ENABLER V

Vitalized Policies, Internal Systems, and Governance

Strengthening CHED’s policies and internal systems to promote efficient, transparent, and accountable governance, and ensuring that policy development is relevant, responsive, and aligned with the needs of the nation.

ENABLER E

Effective and Efficient Public Service

Delivering timely, responsive, and people-centered services that meet the needs of all stakeholders.

By integrating these thrusts and enablers, **A.C.H.I.E.V.E.** serves as both a roadmap and a call to action—ensuring that Philippine higher education not only meets present needs but also anticipates future demands in building a Bagong Pilipinas.

PART 2

How A.C.H.I.E.V.E. Works? THE FRAMEWORK

The **A.C.H.I.E.V.E. Agenda** operates as both a vision-driven plan and an implementation guide, ensuring that CHED’s priorities for 2025–2030 are directly aligned with national development goals. It works by translating the **four thrusts** into focused programs and initiatives, supported by **three enablers** that provide the systems, resources, and institutional capacity needed to make change sustainable.

At its core, the Agenda is anchored in the **A.C.H.I.E.V.E. Strategic Framework**, which supports the national government’s goal of achieving an *economic and social transformation for a prosperous, inclusive, and resilient society* as articulated in the **Philippine Development Plan 2023–2028**. It also advances the long-term vision of **Ambisyon Natin 2040**—that by 2040, the Philippines will be a prosperous, predominantly middle-class society where no one is poor, and where Filipinos live long and healthy lives, are smart and innovative, and enjoy a high-trust society. In short, a life that is **strongly rooted (matatag), comfortable (maginhawa), and secure (panatag)**.

The Strategic Framework was developed through a series of high-level planning workshops involving CHED Top Management, the National Directorate, and Technical Division Chiefs and Planning Officers. This inclusive process combined leadership perspectives with broad-based ownership fostered through the active participation of operational units and field offices. The design was further informed by on-the-ground reports and observations, as well as the EDCOM 2 Year One and Year Two Reports, which highlighted key systemic challenges in Philippine higher education.

To address these challenges, CHED applied **problem and solution tree analyses** to identify root causes and formulate evidence-based interventions. Each workshop group prepared its own problem and solution trees for its assigned thrust or enabler, which were then consolidated into **integrated problem and solution trees**. This process highlighted the interconnected nature of the issues and the coherent strategies required to address them. Together, these trees form the analytical backbone of the Strategic Framework.

Each tree is composed of three major parts:

- **Branches** – representing the effects or impacts, capturing either the consequences of the current state or the benefits of reform.
- **Trunk** – representing the core problem or the core desired outcome.
- **Roots** – representing the major cause areas or solution areas, organized according to the A.C.H.I.E.V.E. framework.

Figure 1 illustrates the integrated problem tree, which maps the systemic and interconnected challenges facing Philippine higher education. The seven roots correspond to the A.C.H.I.E.V.E. thrusts and enablers, each with specific root causes contributing to sector-wide issues. The branches at the top show the long-term consequences of inaction – from persistent inequities and low global competitiveness to slower national development.

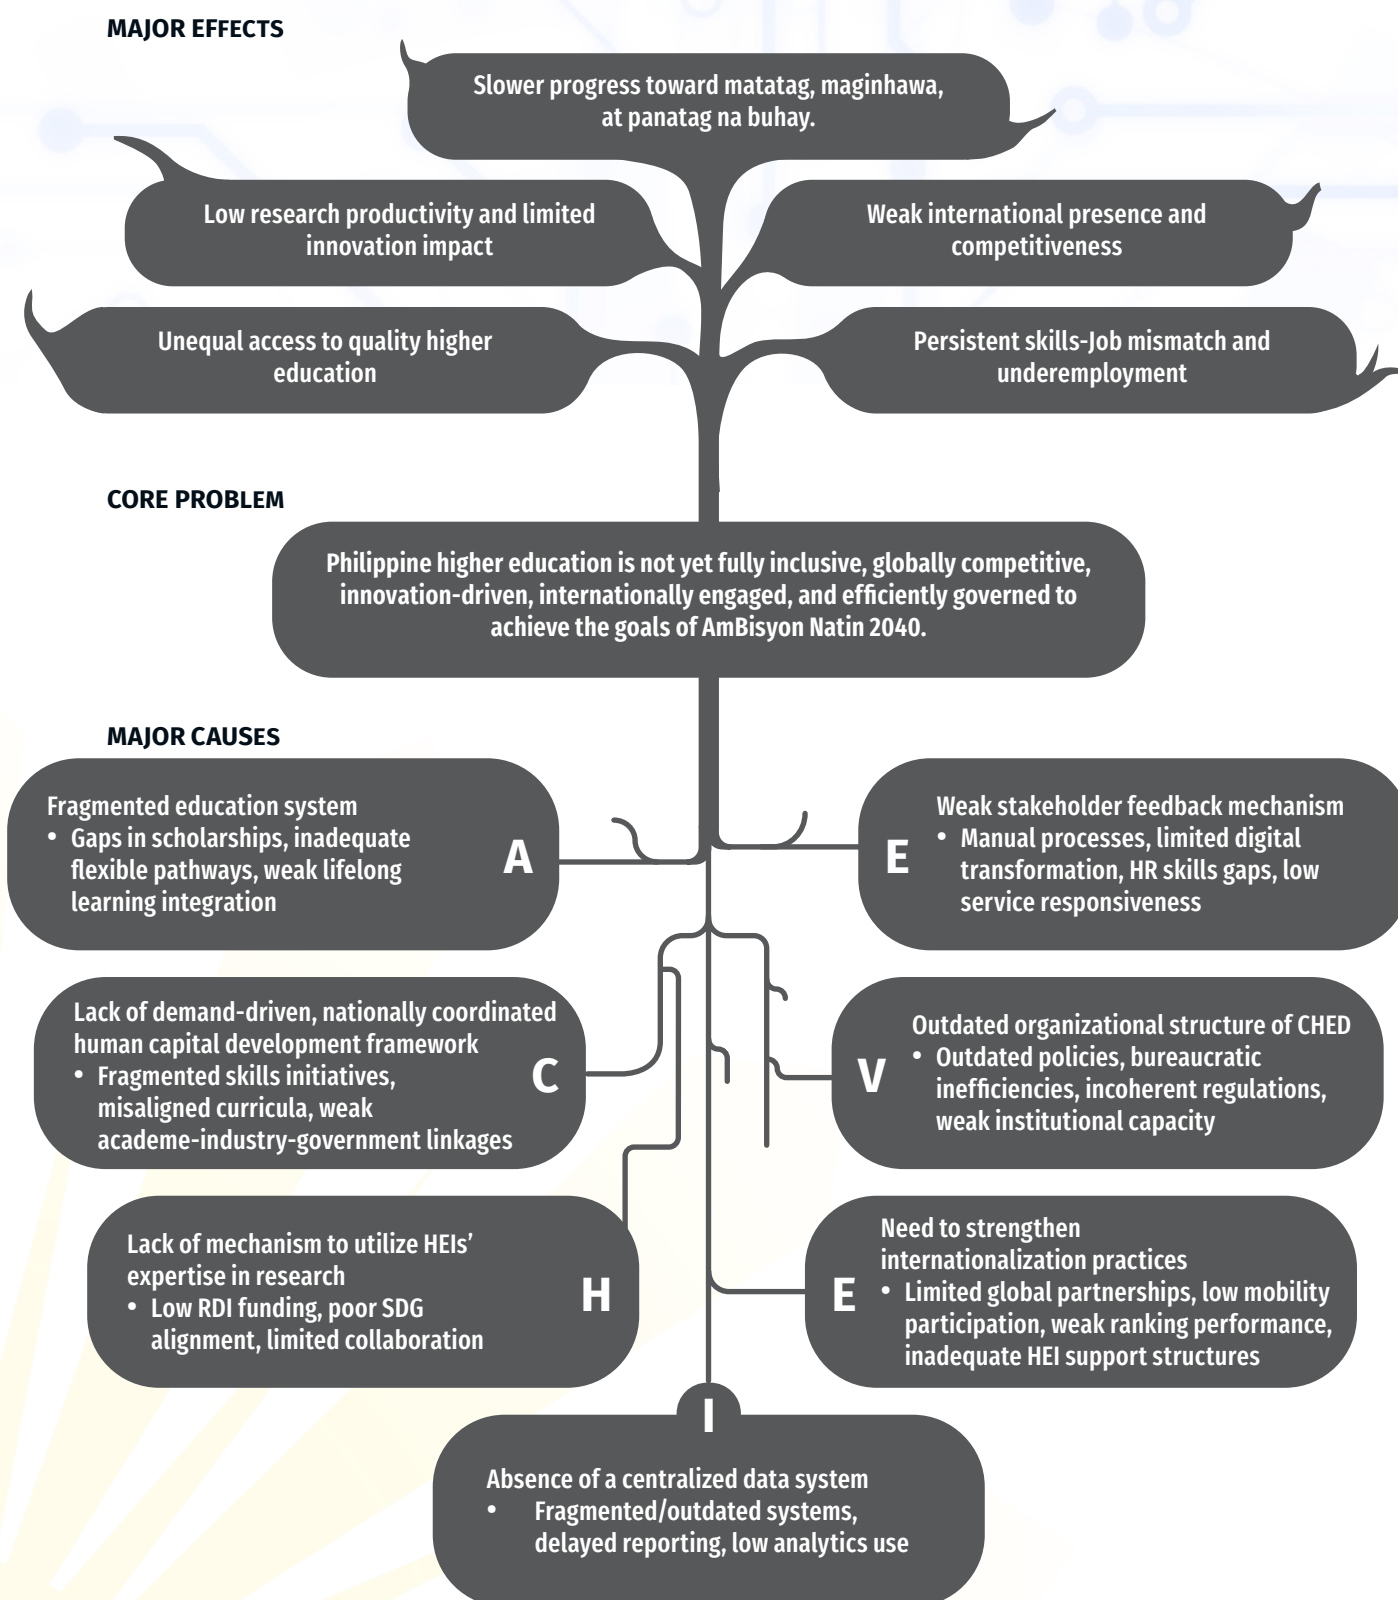

Figure 1. Integrated Problem Tree of Philippine Higher Education

Figure 2 shows the integrated solution tree, translating the identified challenges into strategic responses under the A.C.H.I.E.V.E. Agenda. Each root corresponds to a thrust or enabler, ensuring that the strategic solutions directly address identified root causes. These strategies aim to deliver measurable impacts by 2030, including greater equity in access, stronger research adoption, enhanced improved global presence, and a more agile, people-centered higher education system.

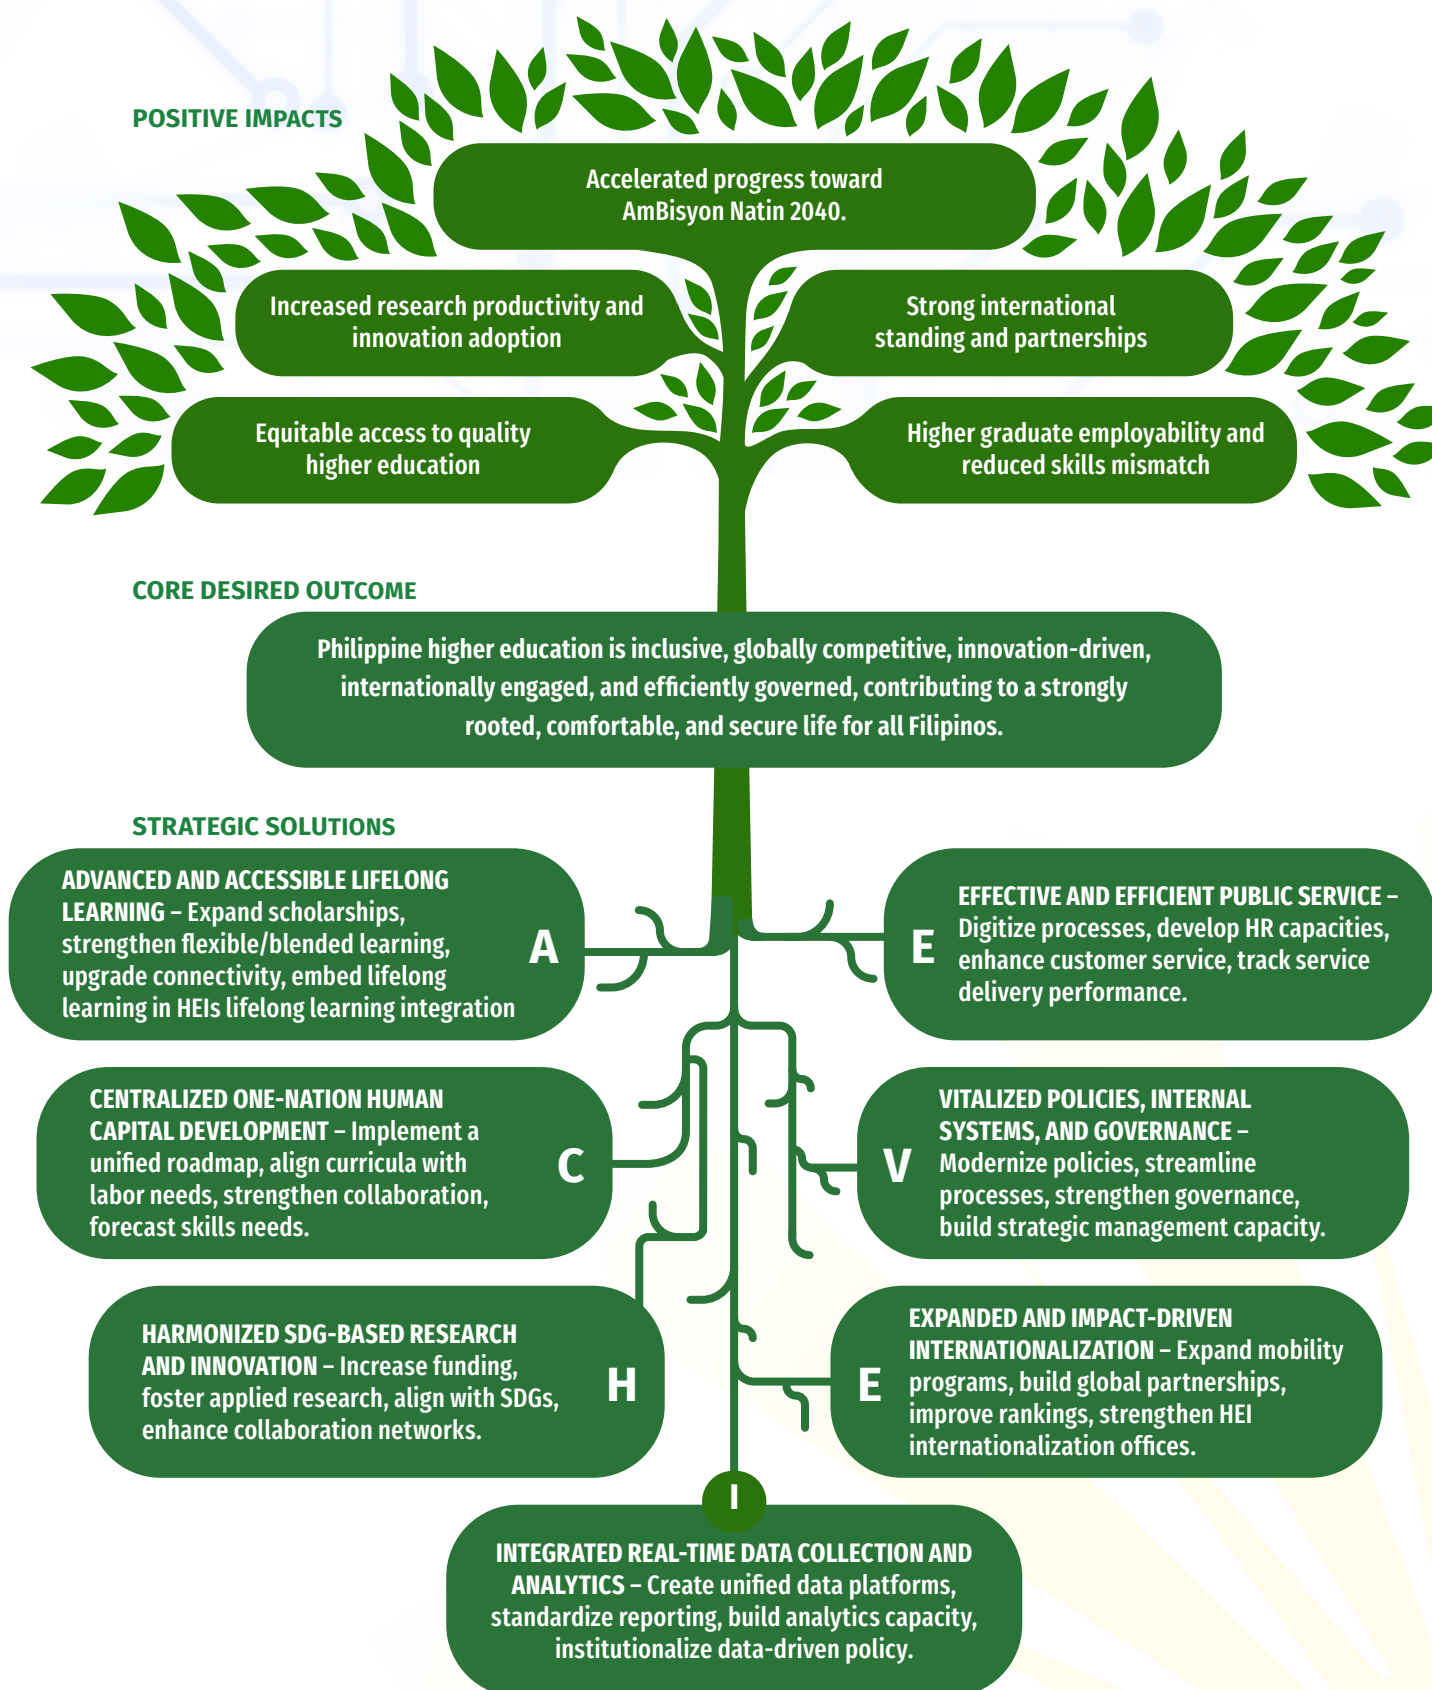

Figure 2. Integrated Solution Tree of Philippine Higher Education

The result of these analyses is a comprehensive and forward-looking framework that directly targets systemic weaknesses while promoting innovation, sustainability, and alignment with national goals.

In operational terms:

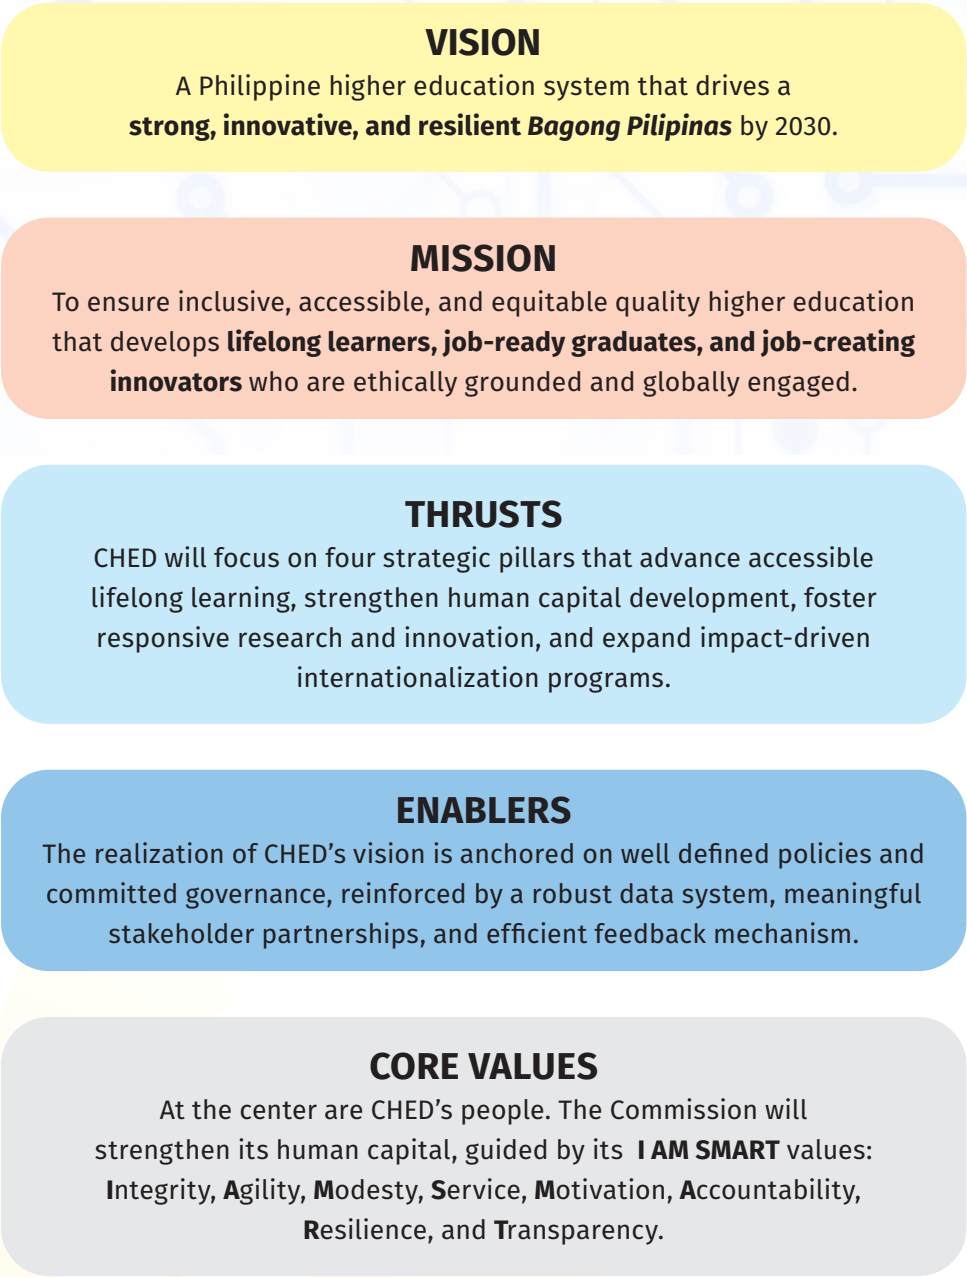

Figure 3 shows the integration of the four thrusts (direction), three enablers (capacity), and eight core values (I AM SMART) in the CHED A.C.H.I.E.V.E. Strategic Framework. This framework visually depicts how these elements work in harmony to advance the **CHED Vision** and its **Mission**. Together, these interconnected components drive CHED’s contribution to the national long-term vision and goals for higher education.

This framework serves as the foundation for the succeeding Strategic Plan, which presents a visual overview of all seven A.C.H.I.E.V.E. thrusts and enablers, followed by a detailed discussion of each. The next section elaborates on the specific objectives, strategies, initiatives, and targets under every letter of A.C.H.I.E.V.E., translating the framework’s vision into actionable directions for Philippine higher education.

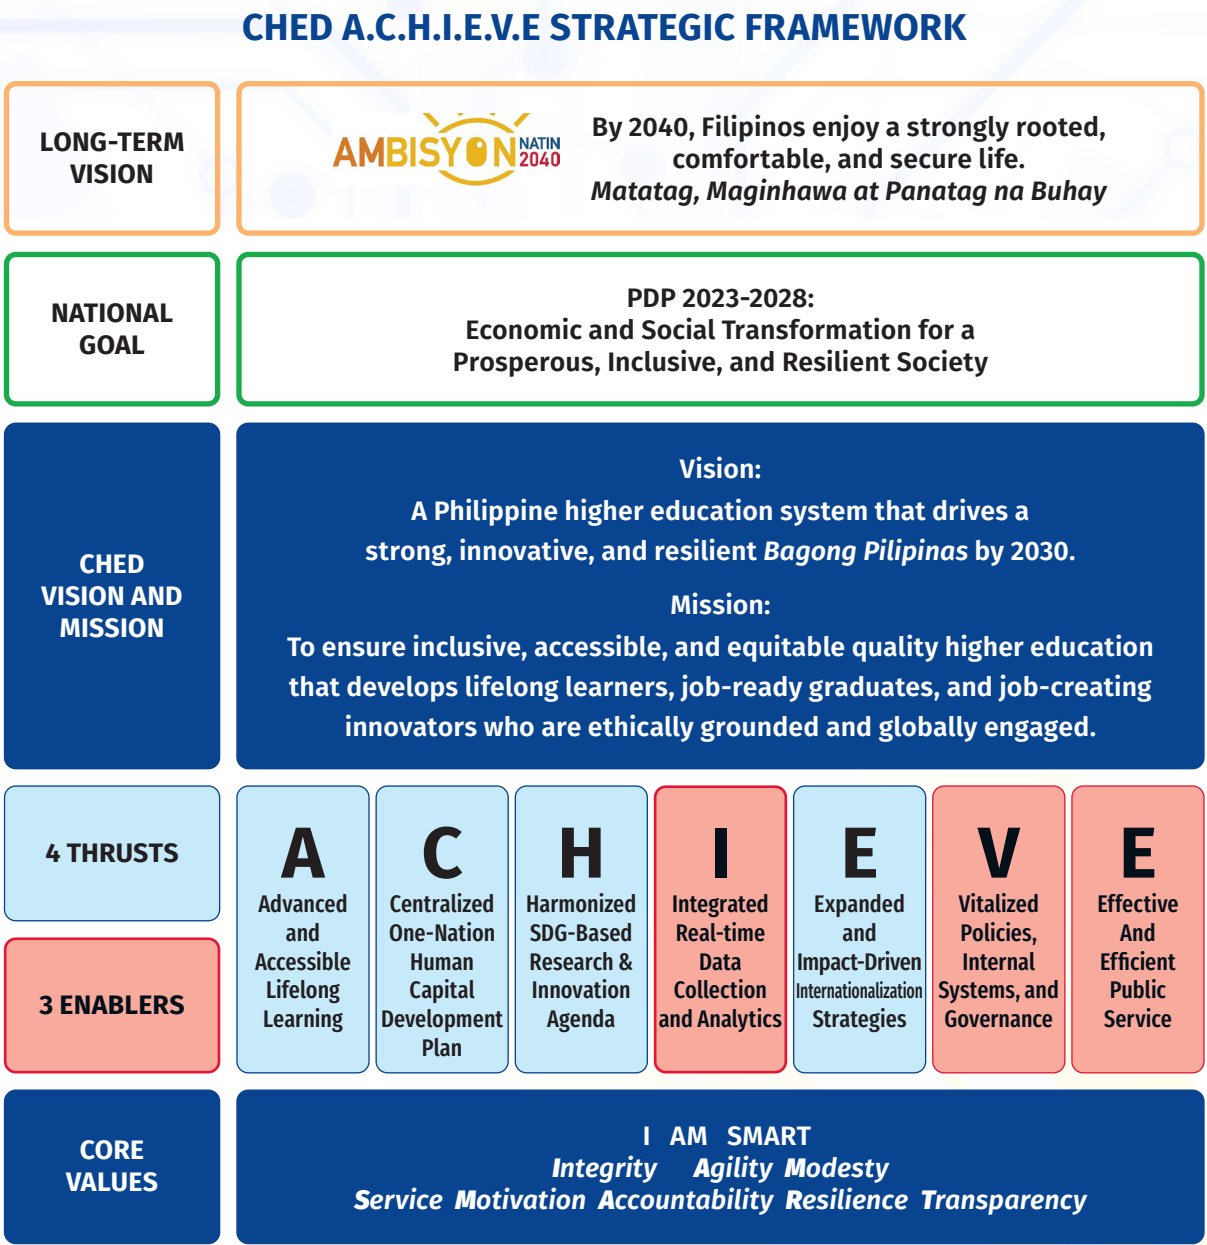

Figure 3. CHED A.C.H.I.E.V.E. Strategic Framework

PART 3

How A.C.H.I.E.V.E. Delivers? THE PLAN

Building on the integrated framework, the ACHIEVE Strategic Plan provides the operational roadmap for translating vision into measurable results. While the framework defines CHED's overall direction, capacity, and values, the plan specifies how these will be implemented through concrete objectives, strategies, and targets under each thrust and enabler.

The following sections present the **Strategic Results Summaries (SRS)** for each thrust and enabler, highlighting the key indicators and 2030 end targets. The more detailed **Strategic Plan Operational Matrices (SPOM)**, which expand these summaries into full objectives, initiatives, and annual milestones, are provided in the Annex.

This progression ensures continuity—from principles to practice, from vision to action—allowing the ACHIEVE Agenda to serve not only as a guiding philosophy but also as a results-driven plan that directly addresses the needs and aspirations of Philippine higher education.

THRUST A

ADVANCED AND ACCESSIBLE LIFELONG LEARNING

Strategic Results Summary

Impact

Supported lifelong learning and credential portability leading to empowered Filipinos with improved employability, industry relevance, and access to global opportunities.

Outcomes

1. Seamless learner mobility across institutions and agencies.
2. Improved employability and income-earning capacity of graduates.
3. Faculty adopt industry-driven, learner-centered approaches.
4. Growth zones and niche programs position the Philippines in global talent markets.

Goal

Ensure that Filipinos have access to advanced and accessible lifelong learning opportunities through harmonized systems, portable credentials, and industry-aligned programs.

Key Indicators and 2030 End Targets

A. Harmonization

- Policies on lifelong learning harmonization → **3 sustained annually**
- HEIs implementing ETEEAP → **137 HEIs**
- Programs offered via ETEEAP → **460 programs**
- HEIs implementing ODeL → **44 HEIs**
- Programs offered via ODeL → **206 programs**
- HEIs implementing microcredentials → **40 HEIs**
- HEIs adopting PCTS guidelines → **40 HEIs**
- Annual impact assessment reports → **1 per year**

B. Smart Credit Transfer & Scholarships

- HEIs with passporting systems → **150 HEIs**
- HEIs with digital platforms for learner records → **150 HEIs**
- HEIs with enhanced ICT infrastructure for mobility → **150 HEIs**
- SUCs/LUCs with TESDA-embedded programs → **100 SUCs/LUCs**
- Operational interoperable scholarship platform → **Sustained and CQI by 2030**

C. Andragogy / Learner-Centered Shift

- LUCs with scoped microcredential programs → **100 LUCs**
- SUCs with industry-aligned new/revised programs → **100 SUCs**
- Faculty trained in andragogy → **50,000 faculty**
- National/regional training sessions → **100 sessions**
- Faculty in national andragogical trainer pool → **305 faculty**

D. Vertical & Horizontal Portfolios (Impact Area)

- Students with microcredentials → **10,000 learners**
- ETEEAP graduates → **4,800 graduates annually**
- ODeL graduates → **3,422 graduates annually**
- HEIs with multi-ladderized programs → **30 HEIs**

E. Growth Zones as Pilots (Impact Area)

- HEIs with industry advisory councils → **100 HEIs**
- Policy recommendations adopted → **70 recommendations**
- SUCs with faculty in job immersion → **90 SUCs**
- SUCs with IMDPs → **100 SUCs**
- Industry partners engaged → **250 partners**
- Recognized growth zones → **25 zones**
- Capacity-building activities for SUCs/LUCs → **80 activities**

F. Niche Map (Impact Area)

- Globally recognized microcredentials → **100 programs**
- HEIs offering globally recognized microcredentials → **30 HEIs**
- CHED-recognized niche programs → **10 per year**
- HEIs offering niche programs with CHED support → **30 HEIs**

CENTRALIZED ONE-NATION HUMAN CAPITAL DEVELOPMENT PLAN

Strategic Results Summary

Impact

A unified and coherent higher education system that produces a competitive, future-ready, and adaptable workforce aligned with national and global labor market demands.

Outcomes

1. Programs and curricula continuously aligned with evolving industry needs.
2. Graduates equipped with competitive skills and employed in hard-to-fill sectors.
3. Attractive and viable career paths developed in strategic programs.
4. Expanded lifelong learning pathways supporting employability and income-earning capacity.

Goal

Implement a centralized, nation-wide Human Capital Development Plan that aligns programs, graduates, and lifelong learning pathways with labor market and industry demands.

Key Indicators and 2030 End Targets

A. Curriculum Alignment

- PSGs aligned with agile framework → **45 PSGs**
- Curricula with embedded microcredentials → **50 curricula**
- Ladderized curricula reviewed/revised → **25 curricula**
- Implementation of Human Capital & Talent Plan → **100% completed**
- HEIs authorized for LLL programs → **+25 HEIs**
- Faculty with Master's degrees → **+5,000 faculty**
- Faculty with Doctoral degrees → **+2,500 faculty**

B. Labor Market Demand & Employability

- Enhanced curricula aligned with global market → **50 curricula**
- International HEI-industry partnership programs → **25 programs**
- Career guidance programs for freshmen → **50 programs [NEW]**
- Graduates employed in hard-to-fill industries → **25,000 graduates**

C. Career Path Development

- Enhanced scholarships for strategic programs → **25 scholarships**
- Position papers advocating salary/career legislation → **25 papers**
- Issued guidelines on academe-industry partnerships → **25 guidelines**
- Coordinative activities conducted → **25 activities**

D. Employability & Lifelong Learning

- HEIs with LLL programs → **25 HEIs**
- HEIs adopting stackable microcredentials → **25 HEIs**
- Graduates employed within 12 months of graduation → **500,000 graduates**
- Employment rate of graduates → **Baseline +25%**
- Overall passing rate in the licensure examinations → **80%**

HARMONIZED SDG-BASED RESEARCH AND INNOVATION

Strategic Results Summary

Impact

A dynamic higher education research and innovation ecosystem that delivers sustainable, SDG-aligned solutions to local, national, and global challenges.

Outcomes

1. A unified NHERA aligned with SDGs.
2. Increased number of HEIs conducting SDG-relevant research.
3. Sustainable and diversified funding streams for RDI.
4. Upgraded research facilities and stronger institutional research management.
5. Active partnerships across academe, government, industry, and communities.
6. Increased translation of research into policy, community programs, and extension initiatives.
7. More research converted into tangible innovations, patents, and community enterprises.

Goal

Institutionalize a harmonized SDG-based RDI agenda that strengthens HEIs as engines of knowledge creation, innovation, and societal impact.

Key Indicators and 2030 End Targets

A. Research Agenda & Alignment

- NHERA updated and implemented → **NHERA-III fully implemented**
- HEIs with SDG research task forces → **250 HEIs**

B. Capacity Building & Projects

- SDG capacity-building programs → **25 programs**
- SDG-aligned research projects funded → **1,000 projects**

C. Funding

- Annual funding allocation for SDG projects → **+50% vs baseline**
- Endowment mechanisms established → **3 mechanisms**

D. Institutional Support & Infrastructure

- HEIs with upgraded facilities → **100 HEI**
- HEIs with functional research support offices → **250 HEIs**

E. Capacity Building & Projects

- SDG collaborative researches supported → **50 projects**
- MOUs/MOAs for SDG consortia → **25 agreements**

F. Dissemination & Incentives

- Digital knowledge platforms → **5 platforms**
- Indexed Philippine journals → **100 journals**
- CHED research incentive programs → **10 programs**

G. Research-to-Extension & Innovation

- Research projects converted into extension initiatives → **100 projects**
- Patents/utility models/copyrights produced → **250 outputs**
- RDI outputs commercialized into enterprises/technologies → **50 cases**

Strategic Results Summary

Impact

A digitally transformed CHED, anchored on a robust digital backbone, that delivers agile, efficient, inclusive, and data-driven higher education services in support of national development and lifelong learning.

Outcomes

1. Improved decision-making through real-time and accurate analytics.
2. Faster and more transparent service delivery across CHED and HEIs.
3. Enhanced interoperability of systems in line with DICT's e-Governance framework.
4. Increased digital competence and innovation culture within CHED.
5. Strengthened partnerships for data-driven higher education.
6. Improved HEI adoption and data quality through full integration and timeliness of reporting.
7. Reduced turnaround time for CHED public-facing services.
8. Policy decisions and reports are increasingly powered by analytics.

Goal

Establish an integrated and real-time data collection and analytics system as the digital backbone of CHED to enable evidence-based policy, governance, and service delivery.

Key Indicators and 2030 End Targets (updated)

A. Digital Governance

- Data governance policies → **sustained monitoring**
- Data Element Manual → **fully integrated**
- ISSP → **aligned with DICT**
- Digital Transformation Committee → **sustained with reports**

B. Digital Platforms & Systems

- Existing systems rolled out → **100%**
- New integrated systems → **100%**
- Systems compliant with privacy & security → **100%**
- IT procurement (ISSP plan) → **100%**
- CHED Command Center dashboards → **100%**
- CHED systems fully interoperable → **100%**

C. Digital Competence & Innovation

- CHED staff digitally proficient → **100%**
- IT plantilla → **34 RO + 12 CO**
- Innovation/digital literacy activities → **11 activities**

D. Stakeholder Linkages

- User-centric platforms → **3 platforms**
- Client satisfaction surveys → **4 annually**
- Partnerships for digital education tools → **10+**
- NGA partnerships → **10 partnerships**
- HEIs using CHED digital systems → **100% adoption**

E. Monitoring & Evaluation

- Scorecard → **1 in place**
- Offices monitored via scorecard → **26 offices**
- HEI data sets on time and validated → **100%**
- Avg. turnaround time for digital services → **50% reduction**
- Policies/reports generated via CHEDIQ → **50 reports**

Strategic Results Summary

Impact

Philippine higher education is positioned as a globally competitive hub through strong policies, sector reputation, institutional reforms, mobility programs, and global partnerships.

Outcomes

1. Coherent policies and systems for internationalization.
2. Improved visibility and global reputation of PH HEIs.
3. Internationalized HEIs with sustainable programs and partnerships.
4. Expanded mobility and global citizenship for students and faculty.
5. Long-term global partnerships that strengthen research, recognition, and funding.

Goal

Expand and institutionalize impact-driven internationalization strategies to position the Philippines as a regional and global hub for higher education.

Key Indicators and 2030 End Targets

A. Policy and System Strengthening

- Revised IZN policies → **11**
- HEIs with IZN-SDG partnerships → **125**
- Foreign scholarships → **200**

B. Global Reputation and Visibility

- New HEIs in rankings → **55**
- HEIs with improved rankings → **30**
- Active collaborations → **334**
- International Linkages Portals → **MAPA and MAHIQA sustained**

C. Institutional Internationalization

- TNHE programs → **15**
- HEIs with SIPs → **500**
- Registry of TNHE providers and other systems → **sustained**

D. Student Mobility

- Outbound Filipino students → **9,718**
- Inbound foreign students → **21,266**
- Students in program mobility → **60**
- GEDI/global partnerships → **514**

E. Philippine-International
Standards Alignment

- No. of PH Standards aligned → **6**

F. ASEAN Presence

- PH branded as study destination → **sustained**
- Students in program mobility → **60**
- HEIs in AUN thematic networks → **30**
- HEIs in AUN thematic networks → **30**
- No. of CHED/HEI leadership roles → **15**

G. Long-Term Engagement

- No. of international partnerships signed → **90**
- International collaborative programs → **30**
- Joint international R&D projects → **6**

VITALIZED POLICIES, INTERNAL SYSTEMS, AND GOVERNANCE

Strategic Results Summary

Impact

A CHED that is transparent, accountable, adaptive, and trusted, with policies and systems that ensure efficient governance and responsive higher education.

Outcomes

1. Streamlined, harmonized, and evidence-based CHED policies.
2. Strengthened institutional capacity and workforce competence.
3. Faster and more efficient service delivery.
4. Robust monitoring, evaluation, and data systems.
5. A human-centered governance culture.

Goal

Reform CHED's policies, systems, and governance structures to deliver responsive, transparent, and accountable higher education services.

Key Indicators and 2030 End Targets

A. Comprehensive Policy Repository

- Policies uploaded in CLIS → **100%**

B. CHED Workforce

- Plantilla positions filled with competency-matched hires → **95%**
- Employees promoted via career pathways → **100%**

C. Procedures

- Streamlined procedures adopted → **50**
- Average turnaround time for permits/recognitions → **50% reduction**

D. Inter-Office Coordination

- Joint inter-office initiatives implemented → **25**

E. Efficient and Effective Public Service

- Client satisfaction surveys conducted → **2 annually**
- Average client satisfaction rating → **95%**

F. Continuous Quality Improvement (CQI)

- CQI reviews conducted annually → **1**
- Policies revised through CQI → **25**

G. Data Systems and Evidence-Based Planning

- Integrated data systems → **12**
- Policy decisions/reports generated from analytics → **50**

H. Workforce Management

- Employees with IMDPs → **100%**
- Employees trained in leadership/management → **250**

I. Dynamic Policymaking

- Policy foresight briefs produced → **10**

J. Decentralized Evaluation

- CHEDROs conducting policy evaluations → **17**

K. Data Analytics for Monitoring & Evaluation

- M&E scorecard institutionalized → **1**
- CHED offices monitored with scorecards → **26**

L. Human-Centered Internal Systems

- Wellness/mental health programs implemented → **5**
- Employees benefitting from wellness programs → **1,000**

EFFECTIVE AND EFFICIENT PUBLIC SERVICE

Strategic Results Summary

Impact

CHED delivers faster, more responsive, and people-centered public service through empowered personnel who embody CHED Core Values (I AM SMART – Integrity, Agility, Modesty, Service, Motivation, Accountability, Resilience, Transparency), supported by strategic communication and streamlined systems.

Outcomes

1. Public trust strengthened through strategic communication and responsive feedback
2. A people-first, values-driven service culture institutionalized across CHED.
3. Improved employee performance and well-being.
4. Professionalized and modernized human capital systems.
5. Public-facing services established to support lifelong learning, human capital, research, and internationalization.

Goal

Enhance the effectiveness, efficiency, and responsiveness of CHED's public service delivery to better serve higher education stakeholders.

Key Indicators and 2030 End Targets

A. Policy and System Strengthening

- Communication campaigns implemented → **12**
- Stakeholder satisfaction rating → **90%**
- Complaints resolved within prescribed period → **95%**

B. Promote a People-First, Values-Driven Culture

- Employees with values orientation → **100%**
- Employees demonstrating I AM SMART values in performance reviews → **100%**

C. Strengthen Human Capital Systems and Employee Well-Being

- Employees with Individual Development Plans → **100%**
- Leadership positions with succession plans → **100%**
- Wellness activities conducted annually → **3**

D. Upskill and Reskill CHED Employees

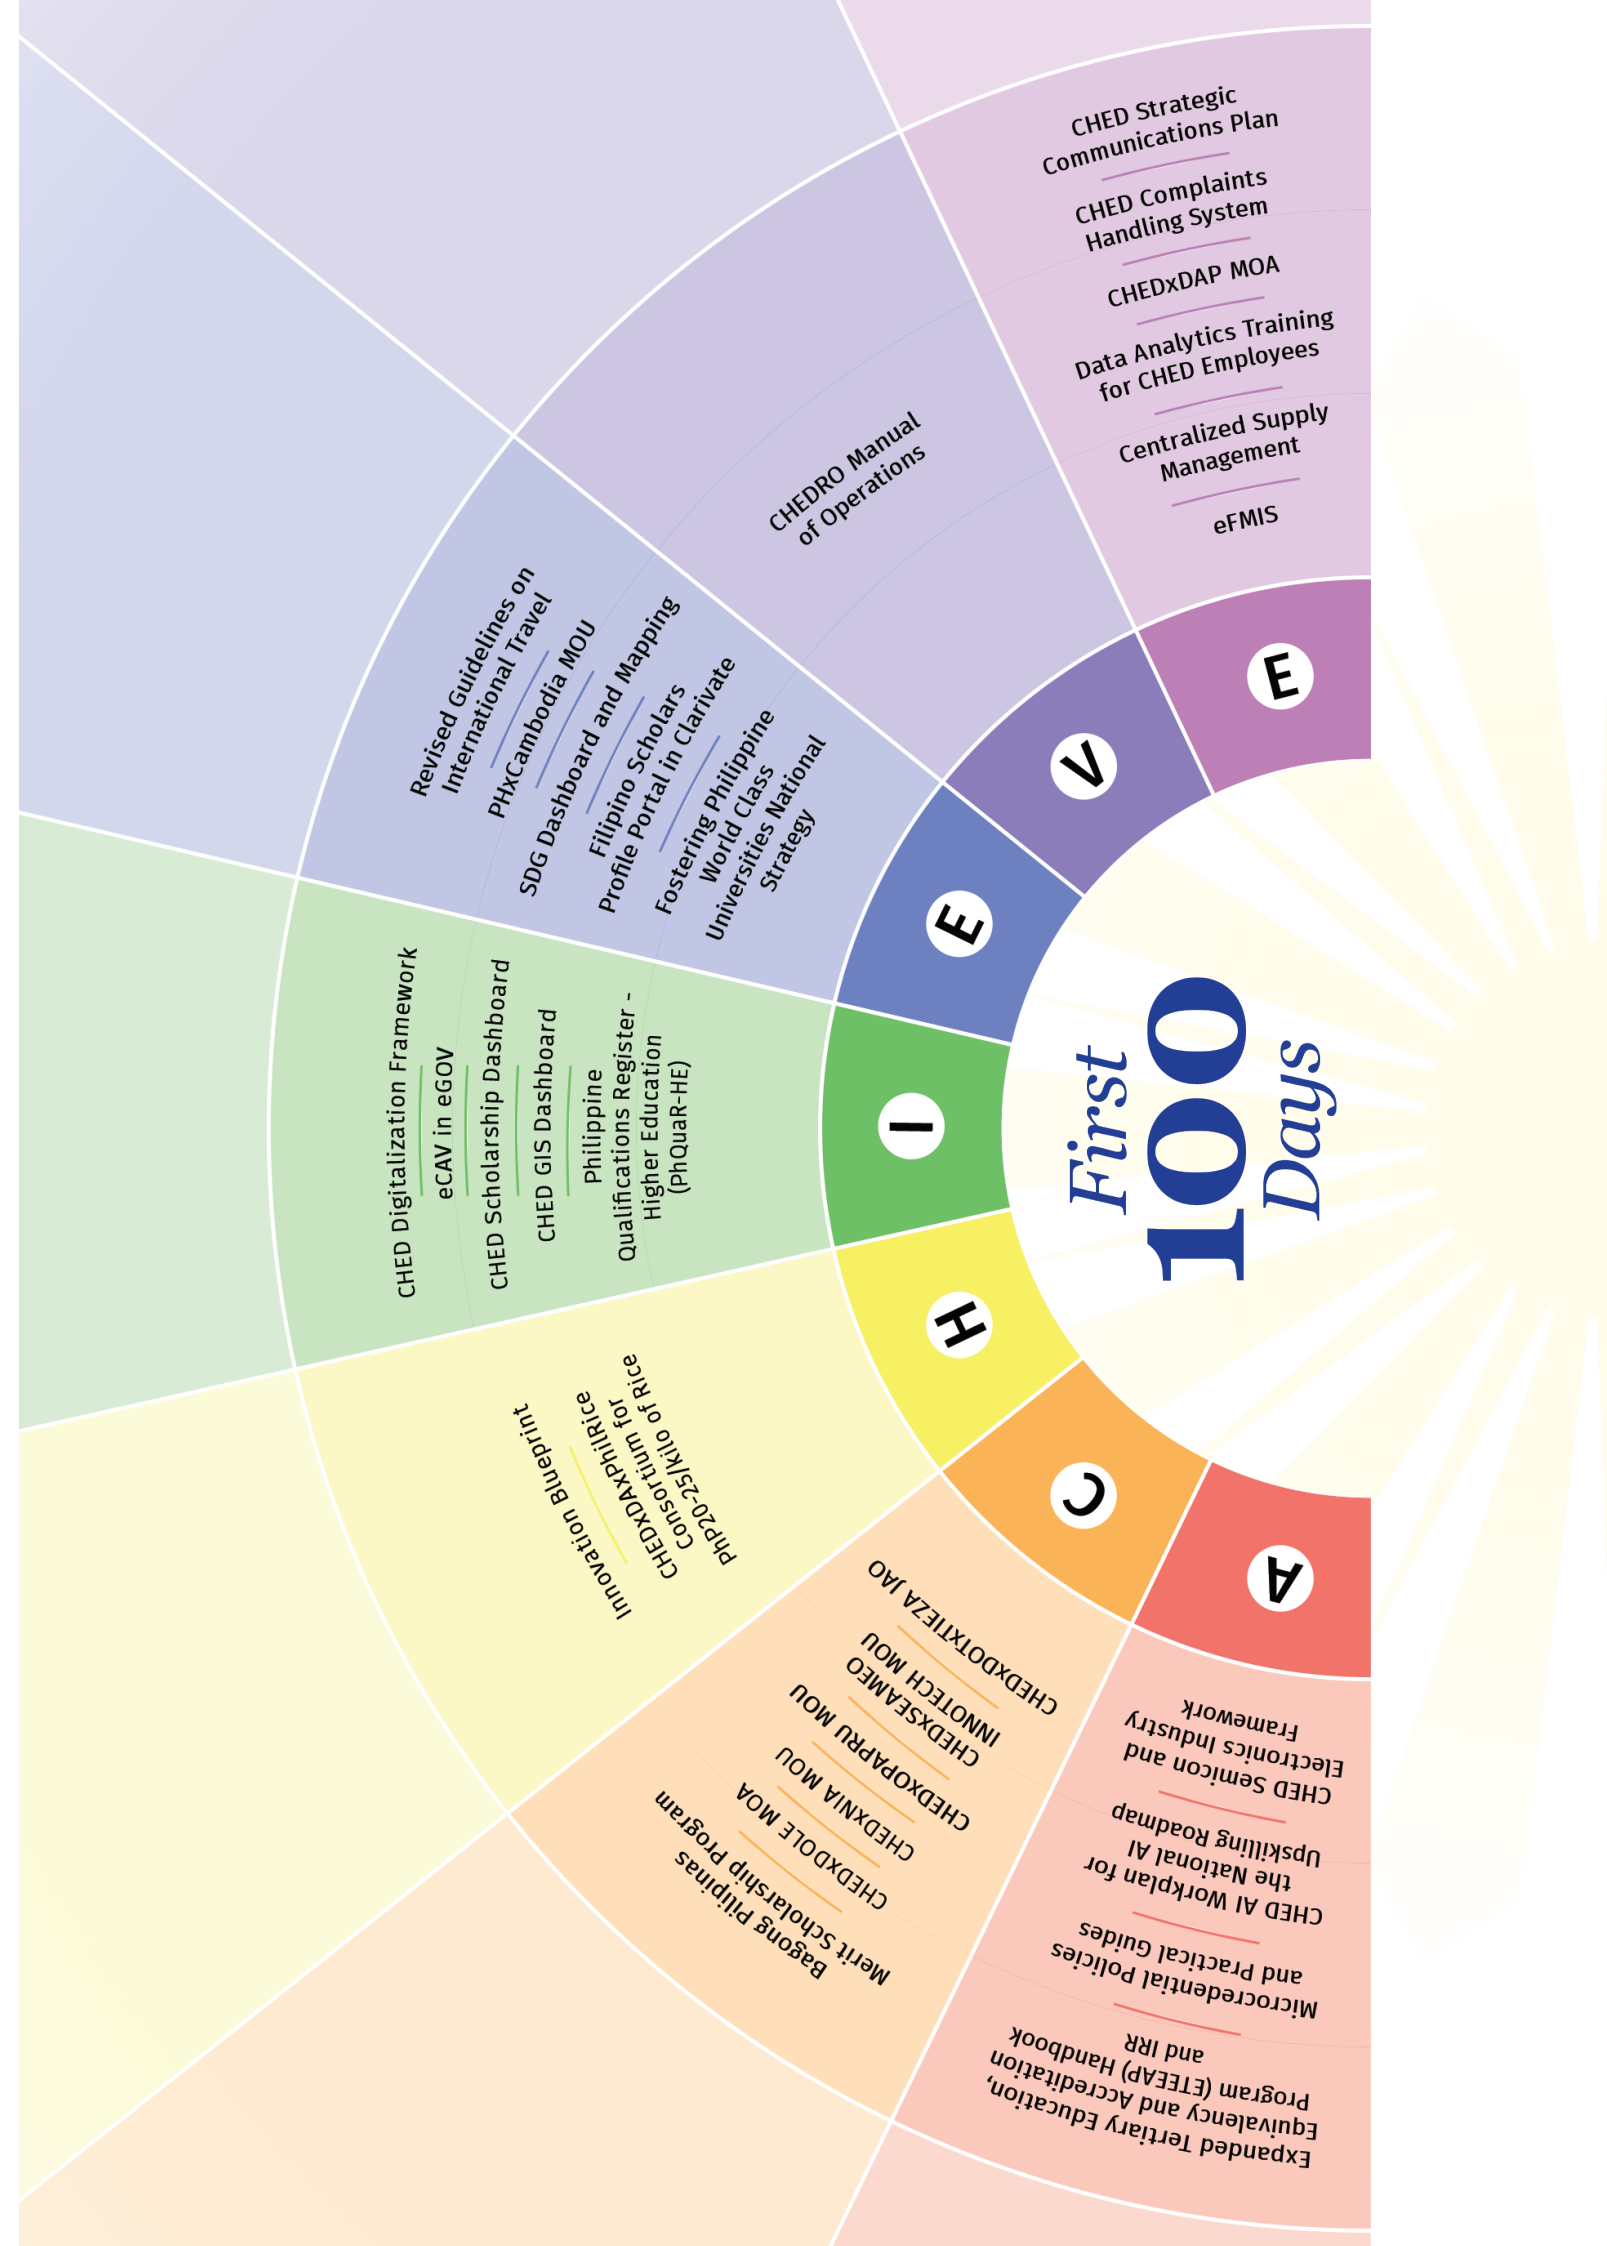

- Employees trained or reskilled → **100%**
- Employees promoted via career pathways → **100%**
- Employees completing certification or advanced training → **25 (cumulative total, 5 annually)**

PART

What has A.C.H.I.E.V.E. achieved? The First 100 Days

In her first 100 days as CHED Chairperson, Dr. Shirley C. Agrupis immediately confronted the pressing challenges of the higher education sector with decisive action and clear direction. She steered CHED toward solutions while forging strong linkages with key government and non-government partners—including DepEd, TESDA, EDCOM 2, DOT, DA, DOST, DFA, DSWD, DOE, OPAPRU, and NIA, among others. Through these collaborations, the A.C.H.I.E.V.E. Agenda gained momentum, moving forward with full speed and a strong sense of urgency to address systemic issues and deliver results.

The following figure presents a snapshot of CHED's major accomplishments during this critical first phase, while the accompanying photos capture Chairperson Agrupis in action as she leads, engages, and collaborates to advance Philippine higher education.

THRUSTS AND ENABLERS

A

ADVANCED AND ACCESSIBLE LIFELONG LEARNING

Supported lifelong learning and credential portability leading to empowered Filipinos with improved employability, industry relevance, and access to global opportunities.

C

CENTRALIZED ONE-NATION HUMAN CAPITAL DEVELOPMENT PLAN

A unified and coherent higher education system that produces a competitive, future-ready, and adaptable workforce aligned with national and global labor market demands.

H

HARMONIZED SDG-BASED RESEARCH AND INNOVATION AGENDA

A dynamic higher education research and innovation ecosystem that delivers sustainable, SDG-aligned solutions to local, national, and global challenges.

I

INTEGRATED REAL-TIME DATA COLLECTION AND ANALYTICS SYSTEM

A digitally transformed CHED, anchored on a robust digital backbone, that delivers agile, efficient, inclusive, and data-driven higher education services in support of national development and lifelong learning.

IMPACT

OUTCOMES

1) Increased access to flexible, lifelong learning pathways for all learners.	1) Programs and curricula continuously aligned with evolving industry needs.	1) A unified NHERA aligned with SDGs.	1) Improved decision-making through real-time and accurate analytics.
2) Strengthened recognition and portability of qualifications across institutions and agencies.	2) Graduates equipped with competitive skills and employed in hard-to-fill sectors.	2) Increased number of HEIs conducting SDG-relevant research.	2) Faster and more transparent service delivery across CHED and HEIs.
3) Improved employability and income-earning potential of graduates and workers.	3) Attractive and viable career paths developed in strategic programs.	3) Sustainable and diversified funding streams for RDI.	3) Enhanced interoperability of systems in line with DICT's e-Governance framework.
4) Enhanced international recognition of Philippine lifelong learning programs.	4) Expanded lifelong learning pathways supporting employability and income-earning capacity.	4) Upgraded research facilities and stronger institutional research management.	4) Increased digital competence and innovation culture within CHED.
	5) Improved student success and retention, shown by higher completion rates and reduced attrition.	5) Active partnerships across academe, government, industry, and communities.	5) Strengthened partnerships for data-driven higher education.
		6) Increased translation of research into policy, community programs, and extension initiatives.	6) Improved HEI adoption and data quality through full integration and timeliness of reporting.
		7) More research converted into tangible innovations, patents, and community enterprises.	7) Reduced turnaround time for CHED public-facing services.
			8) Policy decisions and reports are increasingly powered by analytics.

GOAL

Ensure that Filipinos have access to advanced and accessible lifelong learning opportunities through harmonized systems, portable credentials, and industry-aligned programs.

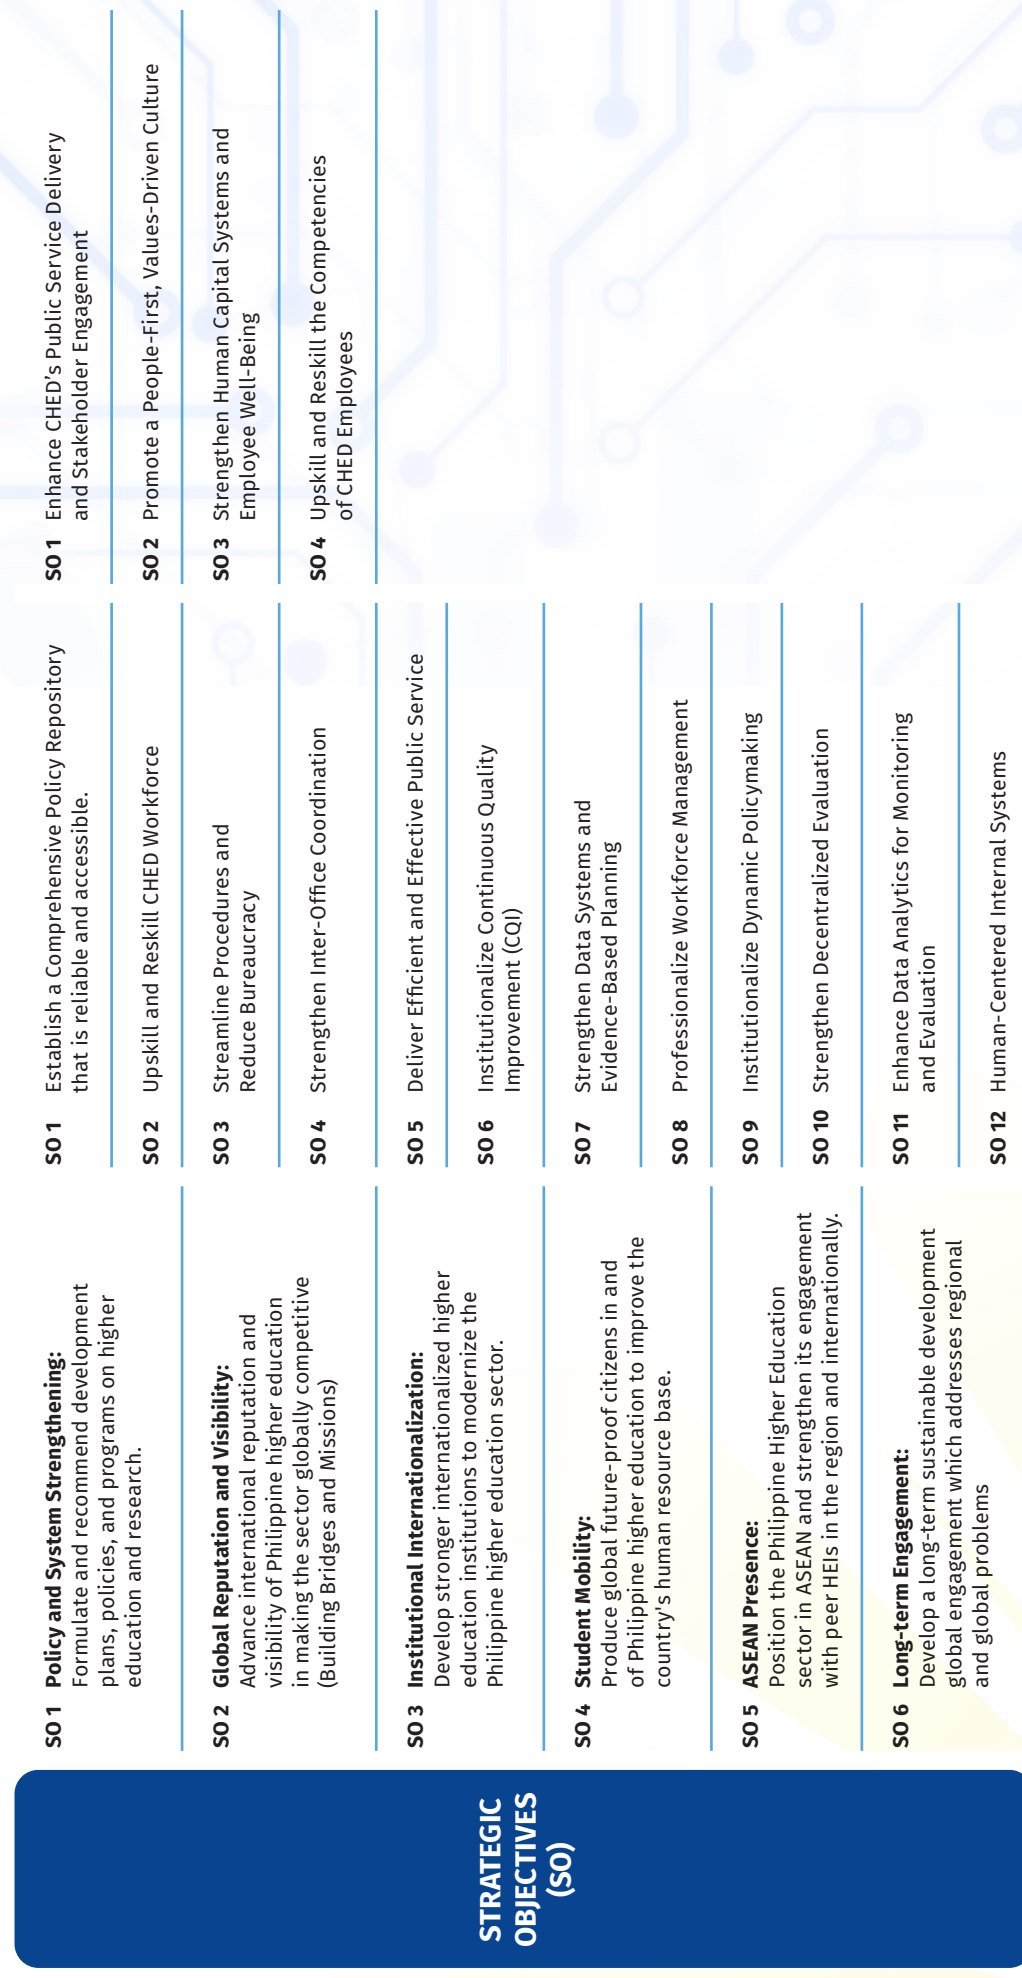

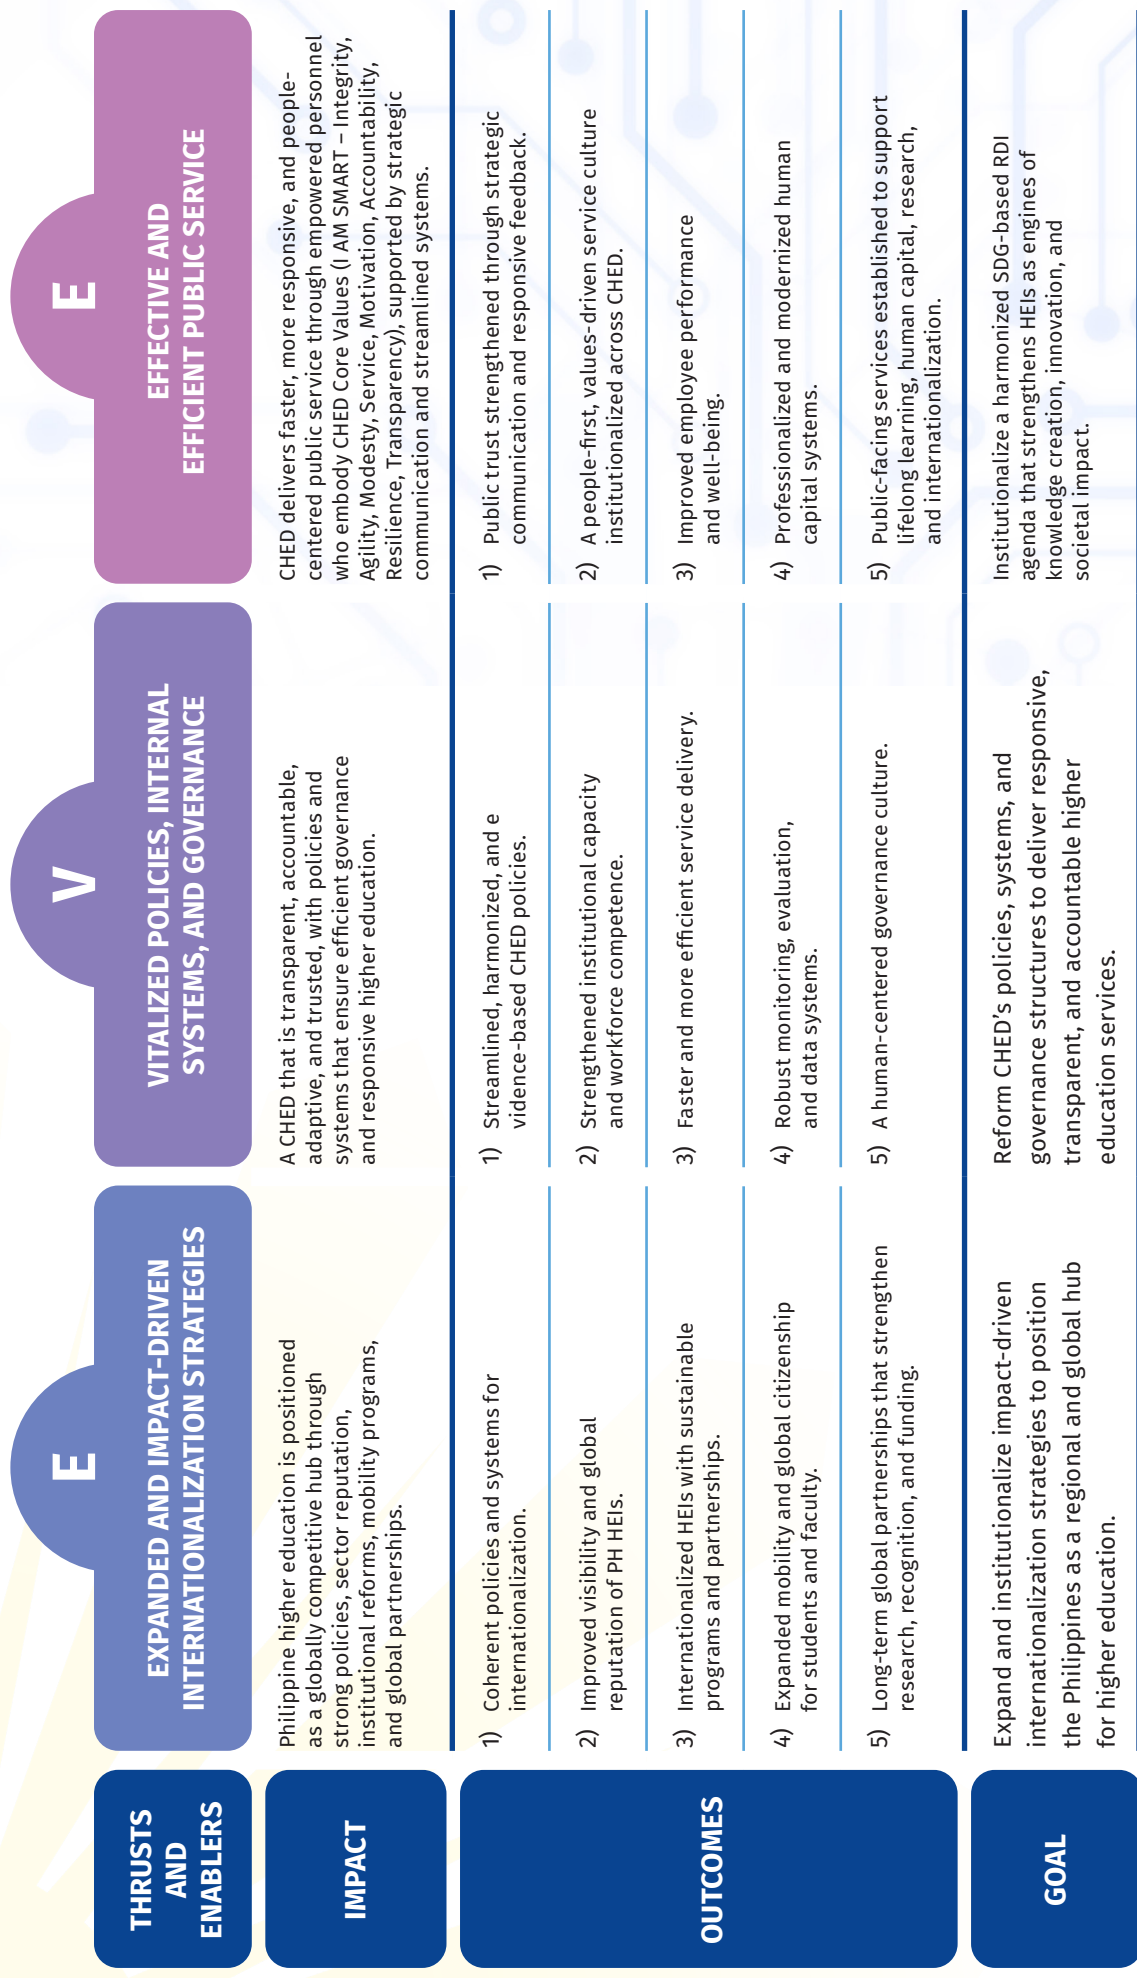

Implement a centralized, nation-wide Human Capital Development Plan that aligns programs, graduates, and lifelong learning pathways with labor market and industry demands.

Institutionalize a harmonized SDG-based RDI agenda that strengthens HEIs as engines of knowledge creation, innovation, and societal impact.

Establish an integrated and real-time data collection and analytics system as the digital backbone of CHED to enable evidence-based policy, governance, and service delivery.

STRATEGIC OBJECTIVES (SO)

SO 1 Harmonization: Harmonize educational pathways and qualifications across educational agencies.	SO 1 In-sync program curricula development with industry advancement.	SO 1 Develop and institutionalize a comprehensive SDG-based higher education research agenda	SO 1 Strengthen Digital Governance
SO 2 Smart Credit Transfer and Scholarships: Sustain passporting cross-institutional mobility for higher education stakeholders.	SO 2 Programs aligned with labor market demand and high employment absorption.	SO 2 Bolster capacity-building initiatives for SDG research	SO 2 Establish Digital Platforms and Systems
SO 3 Andragogy/ Learner-Centered Shift: Institutionalize andragogical approaches aligned with industry needs.	SO 3 Attractive and viable career paths for graduates in select programs.	SO 3 Increase sustainable funding for SDG-relevant projects	SO 3 Build Digital Competence and Innovation Culture
